

AGNIESZKA WOŁCZYK

PROFILE SUMMARY

Architect and Project Manager with nearly 15 years of experience in delivering construction projects in Poland and across Europe, including Hamburg (Germany) and London (UK). I specialize in commercial, public, office, and residential developments, managing them from concept to construction supervision.

My portfolio includes over 40 completed projects with a total value exceeding €1 billion, for clients such as Google, Nokia, Heimstaden, and Afi Europe, including two projects awarded through public tender competitions. I design in harmony with people and the environment. I design and build with purpose. I have experience working in BIM environments and delivering projects in line with BREEAM/LEED certification standards..

I value precision, responsibility, and collaborative partnerships. Architecture is my passion - I combine aesthetics with a practical approach to the investment process.

I am currently seeking a job in an international environment in Switzerland, where I aspire to contribute to ambitious projects within a company that values quality, innovation, and sustainability.

EDUCATION

ANDRZEJ FRYCZ MODRZEWSKI UNIVERSITY
IN KRAKÓW, POLAND

Bachelor's Degree – Architecture, 2006 - 2008

Master's Degree – Architecture, 2010 - 2013

LANGUAGES

- Polish: Native
- English: Fluent
- German: Good skills

SKILLS

- Teamwork, Time Management,
- AutoCAD, BIM, Revit, 3ds Max, VectorWorks, SketchUp, Lumion
- Adobe Creative Suite (Including InDesign)
- Experience in Design and Build systems
- Knowledge of BREEAM / LEED certification standards

WORK EXPERIENCE

Project Manager - Collaboration with **Epol Holding** on behalf of **Horizone Studio**  May – December 2024

1. Revitalization of a historic 19th-century townhouse (pre-1900) in Kraków into a **3-star hotel with a restaurant**,  with a total area of **1,400 m²**, Construction and executive design based on the concept developed by **BXB Studio**:
 - Meetings with subcontractors and providing project guidelines in the following areas: **Heritage conservation program**, **Acoustic expertise**, **Land surveyor** (site inspections), **Structural engineer**, **MEP installations** (water/sewage, ventilation, electricity), **Health & safety and sanitary inspections** (Sanepid)
 - Development of construction and executive documentation
 - Interdisciplinary coordination
 - 3D modeling, material specifications, and cost estimation
2. Interior design of common areas in a residential building in Łódź, with a total area of **1,000 m²**, for **Epol Holding** 
 - Technical drawings: **concept and executive design** (details, flooring, material specifications)
 - 3D modeling – concept and visualizations
 - Material specifications and cost estimates
 - Descriptive section for interior design
3. Attic conversion into **6 residential units** in a historic townhouse (built in 1925) in Kraków, total area: **390 m²**
 - Development of concept design, building **permit design**, and **executive documentation**: Technical drawings, 3D modeling with visualizations, material specifications, and cost estimation (including details and flooring plans)
 - Meetings with subcontractors and project guidelines in the scope of: **Heritage conservation expertise**, **Structural engineer** **MEP installations** (water/sewage, ventilation, electricity), **Health & safety**, and **sanitary inspections**

1. Realizacja biura dla firmy **Scholler Allibert** o powierzchni **600 m²**, 
2. Realizacja projektów **mieszkaniowych dla deweloperów Heimstaden (752 mieszkania na wynajem, budżet 8 milionów)** oraz **Afi Europe (823 mieszkania na wynajem, budżet 6 milionów)** w standardzie home standing, 
- Project implementation in the “**design-and-build**” mode,
- Supervision of construction works in collaboration with 40 contractor teams,
- Preparation of material take-offs with cost estimates and offers based on the budget,
- Development of proposals for contractors and subcontractors
- Site inspections, task schedule monitoring, and progress reporting,

1. Implementation of artistic installations (**34 exhibits**), **museum spaces**, and **arrangements covering** an area of **2,200 m²** for the **Cogiteon Science Centre** in Kraków: 
- Searching for suitable subcontractors for specific fields and their particular requirements – for **16 installations** with a total value of **4 million**.
- Meetings with the investor and coordination of work with **34 subcontractors**, preparation of material take-offs with cost estimates, and offer preparation based on the budget.
- **Material take-offs and cost estimates**
- **Subcontractor agreements** based on project guidelines and material specifications - bill of quantities

1. Implementation of office fit-outs in office buildings for **technology companies** – Google, Nokia (area: **25,000 m²**, budget: **4.4 billion**),  
- Coordination meetings with the **MOLA architectural office from Dublin**
- Preparation of material take-offs with cost estimates and offers based on the budget
- Communicated with clients and consultants in English,
- Coordination of multidisciplinary projects: architecture, sanitary installations, air conditioning, ventilation, BMS system, and space planning
- Compliance analysis with applicable standards: **Technical Conditions (WT)**, fire safety, occupational **health and safety (OHS)**, acoustics, **BREEAM / LEED**
- Development of proposals for contractors and subcontractors, as well as **project documentation at every stage of implementation**
- Material take-offs and cost estimates, proposal preparation for contractors and subcontractors, and on-site inspections
2. Ausarbeitung ausgewählter Gestaltungselemente im **Einkaufszentrum in Hamburg (1.000 m²)**
- Communicated with clients and consultants in German and English,
- Ausarbeitung von Details für das Ausführungsprojekt,
- Communicated with clients and consultants in German and English.
- Analyse der Übereinstimmung mit Normen: **Wärmeschutz (WT)**, **Brandschutz**, **Arbeitssicherheit**, **Akustik**, **BREEAM / LEED**,
- Koordinationsbesprechungen im Bereich der Planungsarbeiten.

1. Execution of a **law firm office project** in Warsaw
2. Implementation of the office fit-out
- Coordination of work and supervision of project quality according to the construction schedule
- **Budget-based breakdowns**, development of space plans
- Preparation of contracts with contractors (**12 contractors**)
3. **Pet Factory – Purina** – architectural details, execution design with site visits 
- Coordination of work and supervision of quality and construction schedule,
- Development of detailed alternative solutions for the **execution design**
4. Development of a **residential project in the execution design phase**
- A set of **drawings with descriptions and schedules** for the project, including detailed drawings,
- **Project coordination** with disciplines: structural, electrical, plumbing, acoustics

1. **Libero Shopping Center in Katowice** with an area of **60,000 m²**, investment value: **PLN 75 million**, 
2. **Shopping center** in Tomaszów Mazowiecki, investment value: **PLN 90 million**, project scope: PLN 200 million 
3. **Browar Lubicz residential complex** with a usable area of **13,700 m²**, project value: **PLN 200 million** 
4. **Residential project** in Polkowice with an area of **64.98 m²** – conceptual design
5. Park in the Eximus Business Center in Kraków – **Eximus Park** 
 - Coordination meetings and supervision of quality and construction schedule, execution of office and industrial projects,
 - Procurement, tender submissions, and coordination of projects in the design-and-build system
 - Contracting with subcontractors and contractors based on the scope of work descriptions, implementing optimization changes in schedules
 - Project and discipline coordination: electronics, telecommunications, sanitary installations, air conditioning, ventilation, BMS
 - Development of architectural concepts for building structures

Architect - **Węclawowicz group**, Kraków - Poland

2010 - 2014

1. Revitalization and expansion of a Monastery in Kraków
2. Survey of St. Catherine's Church in Kraków
3. Single-family house designs including interiors for private investors (10 projects)
4. Private and commercial interior designs (8 projects)
 - Development of projects at every stage, from conceptual design to execution design,
 - Preparation of design packages and documentation in compliance with regulations: **Technical Conditions (WT)**, **Building Law (PB)**, **Health and Safety (BHP)**, **Administrative Procedure Code (KPA)**,
 - **Interdisciplinary coordination:** electrical engineering, HVAC, water and sewage, fire protection systems

COMPETITION AND STUDY PROJECTS:

1. Winning concept for the **revitalization and extension of the library** in Dąbrowa Górnicza as part of a competition, and development of the project during the concept and building permit design phases, August 2014 – December 2014, **realized** in 2016–2018 
2. Honorable mention for diploma thesis in the "Masters and Students" competition, supervised by Dr. Eng. Arch. Romuald Loegler – Natural History Museum in Zakrzówek, Kraków, Poland – September 2013 
3. Participation in a workshop with architect Chris Sharples: "**Landscaper on the Vistula River Bank**" – project theme: "**DNA Vistula River**", 2012
4. Participation in SARP competition – **New Image of the Architecture Gallery**, 2011
5. Participation in the international **Schindler Award** competition, 2010 
6. Participation in **Pecha Kucha** – **multimedia presentation consisting of 20 slides** shown during a public talk - Selected works presented: **1. Graphic design** – Chopin Poster Competition; Occasional wedding poster, **2. Photography** – Ordinary Object; Handicraft – felt coasters (Love is simple, love is round) **3. Projects:** Urban acupuncture – adapting a former mill building into a cultural center; Avenue of the Future – street revitalization project in Rzeszów created during a workshop – awarded during a presentation at the City Hall, 2010
